

Face shields warranty and liability disclaimers

Enclosed are face shields from the Maker Nexus community of makers. These shields are provided free of charge as humanitarian aid.

Maker Nexus and our community members are people who make things. Maker Nexus and our community members are NOT a manufacturing or production company and do not manufacture medical devices or products.

Upon receipt from Maker Nexus, you are solely and fully responsible for ascertaining that these face shields are suitable for your use. Maker Nexus provides and you are accepting the enclosed face shields "AS-IS" with no warranties and/or guarantees. Maker Nexus and our extended community of makers make no representations or warranties of any kind with respect to the face shields; all face shields are provided "AS IS" with all faults. Maker Nexus expressly disclaims any and all guarantees, warranties, conditions and representations of any kind, either express or implied, whether arising under any federal, state, national, and/or international statute, law, regulation, commercial use or otherwise, including implied warranties of merchantability, fitness for a particular purpose, title and non-infringement. While Maker Nexus assists with facilitation of the humanitarian provision of the face shields, it does not endorse any products, including the face shields. You expressly agree, via receipt and use, that your receipt, reliance upon and use of the face shields are at your own risk. No oral or written information or advice given by Maker Nexus or any of its partners, officers, employees, agents, community of makers, shall create any warranties, product endorsements or advice.

You agree that in no event shall Maker Nexus or any of its partners, officers, employees, agents, community of makers or affiliates be responsible or liable, directly or indirectly, under any theory of law (UCC, contract, tort, negligence or otherwise), to you or anyone else, for any and all claims, actions, penalties, fines, liabilities, losses and/or damages (including without limitation, any direct, indirect special, incidental, punitive or consequential damages), relating to, arising or resulting from or occasioned by the receipt, use of or reliance on any of the enclosed face shields.

If you are unwilling to accept complete and ultimate liability for your receipt and use of these face shields as set forth herein, you should not use and must dispose of the face shields

These face shields are donated to you and intended for distribution and use at your medical facility only. They are not for sale or resale. You agree not to sell or accept any form of compensation from anyone who receives or uses any of your allotment of face shields. Any sale or resale of these face shields is a violation of the trust and goodwill of Maker Nexus, our volunteers and our donors, and will make you and your organization ineligible to receive further donations.

This shipment is NOT sterile. You must take whatever steps you deem necessary, and as required per regulation and FDA guidance, to prepare the face shields before use.

Face Shield Information and Instructions

Donations

Donations are accepted but not required. <http://makernexus.com/donate>

Materials

The shield part is made of PETG and is resistant to alcohol and UV light.

The head band and stabilizer could be made of PETG, ABS, or PLA. All materials are resistant to alcohol. PETG and ABS can be subjected to temperatures of about 150 degrees F before deforming. PLA will deform at about 140 degrees F.

Assembly

You may have received parts that require assembly. Many health care providers prefer to receive parts so they can more easily sanitize them before use.

Assembly is easy and documented in this short two minute video:

<https://youtu.be/qKqDUExm4Q8>

It is easy to take them apart. We have a short video on the process:

<https://youtu.be/F7FFPzGerME>

Here is a downloadable PDF showing assembly instructions:
